Dear Sir / Madam

Thank you for consulting Network Rail on the proposed Durham City Neighbourhood Plan.

Whilst there is mention of the railway there are no specific policy features regarding the railway.

As you will be aware there is high demand at Durham station for car parking. As such there are aspirations to provide additional car parking at Durham station through the double stacking of the station car park.

We would welcome the inclusion in policy T2 -Sustainable travel for the support of additional car parking at Durham station to aid the use of rail travel which supports the aims of policy T2 for the use of sustainable transport.

If you require any further clarification or information please do not hesitate to contact me.

King regards  
Frances Cunningham
